

Changing Stock Quantities

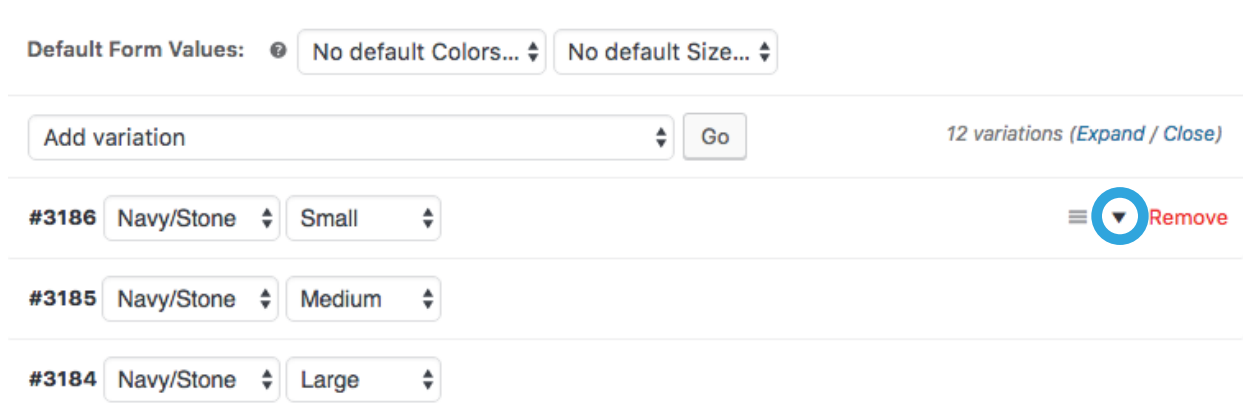

Once you're logged in, open the Product you wish to edit.

Once you are on the product page, find the **Variations** tab under the **Product Data** section.

Product Data — Variable product	
General	Default Form Values: No default Colors... No default Size...
Inventory	Add variation Go
Shipping	#3186 Navy/Stone Small
Linked Products	#3185 Navy/Stone Medium
Variations	#3184 Navy/Stone Large
Advanced	#3183 Navy/Stone XL

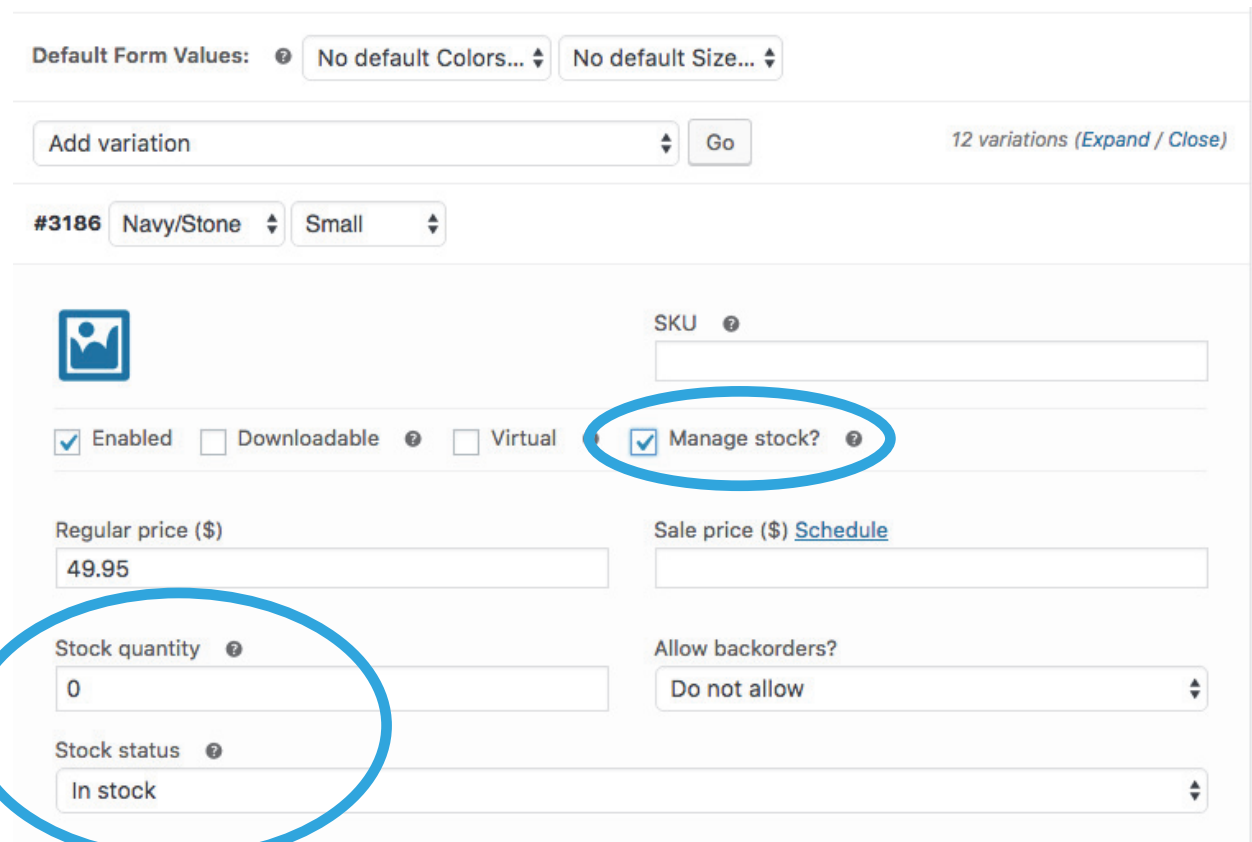

This shows all the size/color combinations available for the product.
To edit a variation, click the springload icon (small arrow) to the right.

Default Form Values: No default Colors... No default Size...	
Add variation Go	12 variations (Expand / Close)
#3186 Navy/Stone Small	Remove
#3185 Navy/Stone Medium	
#3184 Navy/Stone Large	

By default, the option to **Manage Stock** isn't turned on. If you go to a product and it isn't turned on yet, check the **Manage Stock** box.

After you've checked Manage Stock, a field will appear for you to enter the **Stock Quantity**. Also be sure to select that it is **In Stock** under Stock Status, or the live page may show that the item is sold out. If you do run out of stock for an item, be sure to switch this to **Out of Stock** and it will remove that size/color variation from the live site.
